25X1 ♣	The airfield west of Desirn (at ECS) is boding reconstructed at high speed. Two labor units are at work: one building a rummy approximately 2,000 meters long and 20-30 meters wide, the other repairing buildings. The latter project, involving four buildings which should accommodate about 3,000 persons, is almost completed. The building now used by SM SMAN may be included in this complex at a later date.

3.	Mear the destroyed forzer. Junkers factory area, measure electing and grading projects are planned with an eye to transforming the field into a model adrport. All local ammills have been ordered by the airfield commander (an unidentified major) to prepare boards for fencing in the entire field area, comprising about 6,000 Pargon. Several factory chimneys in western bessau and one in Alten have been shortened to provide aircraft clearance.			
4.	On 28-29 July 1949 only a single PO-2 was seen on the field. A casual source stated that a fighter unit of approximately 60 planes had been at the field during the past year. He planes were KAK-9 and KA-5°s. Up to the present, no jet planes have landed, but it is runored that the advance party of a jet unit is billeted in Dessau now. At 1630 hours on 29 July, source saw five waves of "Type B" (sic) aircraft flying NW at 1,500 meters.
